

PROJECT – WHOLE HOUSE RE-MODEL INCLUDING NEW ROOF SYSTEM AND
ADDITION OF 340 Sq Ft.

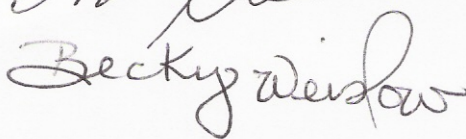

We chose Robert Youngs for this project for a variety of reasons. First and foremost, he instilled a sense of trust and confidence the likes of which we had not experienced with past contractors.....A man of integrity.

Robert was even-tempered and patient throughout the process. He made suggestions and offered appropriate solutions. He is an extraordinary problem solver and he delights in that ability. He presided over the project with due diligence and completed on schedule despite some weather related setbacks. The jobsite was maintained clean and organized from start to finish.

The above comments are echoed in regards to his primary workers, sons Jordan, Timothy, and occasionally Lucas. They have strong work ethics and were polite and professional at all times. We were confident in their abilities.

For further inquiry, we welcome your call.
