

April 2006

We have worked with Bob Youngs on many projects over the course of more than five years. We own a vintage 1910 California craftsman home in an historic district in Santa Rosa. Our projects have included an extensive remodel of an existing music room and addition of an outside sun porch to create a new entertainment area. Another project transformed a non-descript corner of our kitchen into a pub-like, cozy wet bar.

It has been a distinct pleasure to work with Bob on all of our projects however big or small. This is what you can expect from Bob as your contractor: superb craftsmanship, creativity with design and problem solving, versatility (from plumbing and electric to top quality cabinetry and stained glass), accuracy (no re-working!), and cleanliness. All of these qualities add up to superb results.

We can recommend Bob with confidence and without hesitation.
